Dear Miss Houston:

The assignment you have chosen regarding the religious opposition to Nazism is, indeed, a challenging one. My own views on this matter are by no means comprehensive, nor would I presume to advance an analysis when there is such an extensive amount of published material on this subject by people who were more directly engaged in the problem.

Attached is a short listing of English publications dealing with this subject. In addition, I am enclosing copies of another bibliography, largely German publications, which lists some seventy works on this topic. I hope that these references will be helpful to you in your undertaking.

Sincerely,

Similar

Mr. Allen W. Dulles

Dear Mr. Dulles:

As an assignment for an English class at Eastern Kentucky State College I am writing a research paper. The subject I have chosen is "Religion vs. Nazism". I am investigating to what extent the German Church opposed Nazism. After reading your book Germany's Underground, which I thoroughly enjoyed, I feel that you could answer several questions which have come to my mind.

It is my understanding that the church did not oppose Nazism to the fullest extent. While reading various articles, however, I have found much emphasis upon church opposition. Did the church greatly oppose Nazism, or did they try to ignore the situation? Did the youth of the church show much opposition? Do you believe that if the Protestant churches had been more united they could have destroyed Nazism before it was securely established?

I would greatly appreciate a personal reply to these questions if it is possible. Also, any material that you could send me or suggestions of material which I could use would be of much help.

Thank you for your time and consideration.

Yours truly,

(Miss) Julie Houston

Dear Miss Houston:

The assignment you have chosen regarding the religious opposition to Maxism is, indeed, a challenging one. My own views on this matter are by no means comprehensive, nor would I presume to advance an analysis when there is such an extensive amount of published material on this subject by people who were more directly engaged in the problem.

It is my opinion that you will find it difficult, even after a thorough study of the facts available, to arrive at a clear decision about the degree of church opposition to Hazism and the effect this opposition had on the growth of Maxis power. Church members and officials reacted to Maxism in accordance with individual political assessments, which understandably varied greatly and their individual consciences. Although the economic, political, and psychological situation in Germany provided unusually favorable conditions for the rise of Maxism, the churches generally impeded the rise of Maxism, the churches generally impeded the rise of Maxism, the churches generally impeded the solidation of Maxis power.

In assessing church potential for resisting German civil authority, furthermore, it is important to avoid too close comparison with our own system, which does not impose state authority on the churches. Since the Peligious Peace of Augsburg, in 1555, the principle expressed in the Letin Cains regio, churches in Germany.

Attached is a short listing of English publications dealing with this subject. In addition, I am enclosing copies
